SUBJECT: Education in Esmeralda County, especially Goldfield.

SUMMARY

There are three K-8 schools in Esmeralda County but no high schools. The three schools are in Goldfield, Dire, and Silverpeak. All high school-aged kids are bused to Tonopah. There were a total of 69 students enrolled in the county school system for the 2003-2004 school year. The county's student to teacher ratio is 9:1 (7 teachers, one literacy coordinator).

The schools are not functioning at maximum capacity. The buildings could handle around 100 more students. More textbooks would have to be purchased to accommodate the additional students, but that would be manageable.
